PROFESSIONAL SUMMARY

Frontend Engineer with 6+ years of experience building scalable, user-focused web applications using React.js & TypeScript. Strong command of modern JavaScript (ES6+, API Integration and Performance Optimization). Experienced in building conversational UI, accessible and secure by default pattern websites. Confident in writing unit tests and owning features from conception to production. Excellent at working with remote first, cross-functional teams.

EDUCATION

BSc. Chemical Engineering, University of Lagos, Akoka, Nigeria 2023

EXPERIENCE

Vitalenex Aug 2024 - Present
Frontend Developer Ikeja, Nigeria

- Built AI-assisted healthcare interfaces using React and Next.js, including conversational UI patterns for AI-driven interactions and dynamic response rendering.
- Developed complex, stateful dashboards with role-based permissions, conditional rendering, and real-time UI updates for data-intensive workflows.
- Implemented reusable component architecture aligned with design systems, ensuring consistency, accessibility, and pixel-level refinement.
- Optimized Core Web Vitals and frontend performance through code splitting, memoization, caching strategies, and SSR/ISR patterns

New Horizons System Solutions Dec 2023 – Dec 2024
Fullstack Developer Ikeja, Nigeria

- Built and maintained modern React applications and **Node.js (Express)** backend services supporting internal platforms. Designed and integrated **REST APIs**, improving data flow, reliability, and response times by 45% under load.
- Worked with little supervision while collaborating with cross-functional teams to plan, estimate, and deliver new features.
- Improved code quality and scalability through refactoring, testing, and Git-based CI/CD workflows.

Freelance Developer Feb 2019 - Present
Fullstack Developer Remote, Nigeria

- Delivered production-grade SaaS and marketplace applications using React, Next.js, and TypeScript with complex UI states and real-world business logic.
- Built advanced UI components including dynamic data tables, dashboard layouts, authentication flows, and responsive navigation systems.
- Integrated third-party payment services (Paystack), authentication (JWT), and CMS-driven content workflows.
- Implemented SSR-enabled platforms with optimized caching strategies and performance-focused frontend architecture.

PROJECTS

Onyiisi (E-commerce) May 2024
Fullstack Developer Remote, Nigeria

- Built Node.js + Prisma backend with secure Paystack integration and robust authentication (Zod + JWT).
- Designed reusable frontend components for product listings, checkout workflows, and dynamic state transitions.
- Implemented SSR, dynamic image optimization, cache strategies, and responsive UI layouts to support high-traffic user flows.

TECHNICAL SKILLS

Frontend Architecture: React 18+, Next.js (App Router, SSR, SSG, ISR), TypeScript
State & Data: React Context, React Query (TanStack Query), REST APIs
Styling & UI: Tailwind CSS, SCSS, CSS Modules
Testing: Jest, React Testing Library
Tooling: Git, CI/CD (GitHub Actions), Vercel
AI Tools: GitHub Copilot, ChatGPT
